Charging

Use the USB cable (supplied) to connect this unit to a computer that is running.

- Connect so the wider side of the plug is up. You may damage the plug or jack if you try to insert it the wrong way.
- The battery is not charged at the time of purchase. Please charge it before use.
- If the unit is off, an icon is displayed on the screen and charging starts.
- You can also charge while the unit is on. The time for charging may increase in this case.

Turning the power on/off

Turning the power on
1. Press and hold the power button (Û) to turn the power on.

Turning the power off
1. Press and hold the power button (Û).
2. Tap “Power off.”
   • The power turns off.

Making initial settings

Press and hold the power button (Û) to turn the power on.

- A setup wizard is displayed when you turn this unit on for the first time. Follow the instructions on the screen to set the following items.
- Select the language
- Setup Wi-Fi
- Tap the name of the access point you want to connect to and then enter the password.
- Set the date and time
- Enter user information
- Set the Googleâ™ account.
  • Tap “Add your account” or “Create a new account” and make the settings according to the instructions on the screen.
- Tap “FINISH” in the final screen.
- A user agreement is displayed. Read the content and tap “Agree.”
  • The home screen is displayed when these initial settings are complete.

Basic operations

The home screen is displayed when these initial settings are complete. The following describes the main operations of the icons displayed at the bottom of the home screen.

Listening to music on this unit

This explains how to use the data copy software to copy music files from a Windows computer to this unit and play them. You can also play from an SD card or download files from websites that distribute music. For these other methods, see the instruction manual.

Copy music files from a computer to this unit

1. Download the installer for the “X-DAP Link” data copy software to your computer.
http://www.jp.onkyo.com/audiovisual/dap/
2. Double-click setup.exe to start “X-DAP Link.”
   • The setup wizard is displayed, so follow the instructions on the screen to install. A shortcut icon is created on the desktop when installation is completed.
3. Connect this unit to the computer with the supplied USB cable and start “X-DAP Link.”
4. Select the folder that contains the file(s) you want to copy from to display a list of music files in the middle of the screen.
5. Click to select “Built-in storage,” “SD card 1,” or “SD card 2” as the copy destination, then click “OK.”
   • You can also click and to specify different copy destinations other than that.
   • To copy to a microSD card, insert a microSD card into the card slot.
6. Select the music files you want to copy in the list displayed in the middle of the screen.
   - Select to copy to the destination selected by (yellow)
   - Select to copy to the destination selected by (pink)
7. Click the copy button for the color selected above.
   • It may take some time until the music content appears in the library of this unit.

Playing Music

1. Tap the “Music” player in the home screen.
   • The “Music” player starts.
2. Tap the track you want to start playing.

Specifications
